BANSHEE®
FOR AUTOMATED EQUIPMENT

The **NEXT EVOLUTION** of an **INDUSTRY FAVORITE**

- Head option for Banshee tools engineered specifically for automated equipment
- Additional cleaning power through jet reconfiguration
- Can be used interchangeably on standard tools
- Reduce time to clean, water consumption, and fuel cost to maximize savings on every job
- Distinct conical profile for guided tube entry
- Utilizing same flow ranges as standard heads, available in Unplugger, Universal, and Polisher options for BN9.5, BN13, BN15, BN18, and BN24 sizes
