

MEDI VAP

PROFESSIONAL LINE
STEAM

ALBERTI[®]
INTERNATIONAL

Brand new steam system

- Delayed Total Stop device
- Safety Valve

Standard Equipment:

- H./T. hose mt 10
- Termic Lance
- Automatic spray Gun

Accessori Optional:

- Steam spray gun
- Quick-fit extension

Dotazione Standard:

- Tubo A/T mt 10
- Lancia termica
- Pistola automatica

Accessori Optional:

- Pistola a vapore
- Prolunga + attacco rapido

MEDI VAP

Alimentazione Power Supply	230V-50 Hz
Controlli Controls	24V
Motore elettrico Electric Motor	180 W
Consumo Acqua Water Consumption	Vapore secco: 0,2 l/min Vapore umido: da 0,5 a 2,0 l/min Dry steam: 0,2 l/min - Wet Steam from 0,5 to 2,0 l/min
Pressione vapore Steam pressure	10 bar max
Goccia Vapore Steam droplet	max 5 micron (dry steam)
Temperatura vapore Steam Temperature	max 160° C per vapore umido (wet steam) max 210° C per vapore secco (dry steam)
Carburante Fuel	Diesel o Etanolo
Consumo gasolio Fuel consumption	4,18 kg/h
Alimentazione acqua Water Supply	Depurata
Dimensioni e peso Dimensions and weight	85 x 54 x H 73 cm 78 Kg

MEDI VAP machine is designed in a compact size, but it produces incredible performances.

The **MEDI VAP** reaches quite large production of steam with operating pressures maximum of 10 bar, which makes it in the market a unique machine.

This is due to the high level technologies used to create this machine, which have been employed by **ALBERTI INTERNATIONAL** structure; **ALBERTI INTERNATIONAL** actually knows how to develop and monitor technologies achieved through its fully equipped research and development centre.

A simple and intuitive screen will guide you step by step and in a simple way, to all the operational functions that reside in **MEDI VAP** machine in notifying you of current alarms, or simply informing you of the parameters.

With our **MEDI VAP** the production of steam is so easy for the first time in the cleaning sector! **MEDI VAP** produces drops of steam which may change in size depending on your needs.

Monitoring is totally complete with **MEDI VAP**.

Thanks to powerful software and a special port of communication "pc-machine", our technical staff will place with very precision all data and information which need for a safe and precise operation.

All these innovations, coupled with high technology applied to make **MEDI VAP** a machine with sure interest.
