

RGB35

Gear reduction box

The Mecline RGB35 gearbox can work with powers up to 23 Kw. The ease of assembly allows a quick connection between the engine and the pump, giving rise to a compact unit entirely supported by the engine. The universal flange on the engine side allows the use of the RGB35 with the most common petrol engines on the market. Mecline gearboxes are normally used on professional petrol high pressure washers.

FIELDS OF APPLICATION

High
pressure
washer

Municipality

Industrial
cleaning

Fire fighting

TECHNICAL DATA

Power (Kw)	17 - 23
Gear ratio	2,19 : 1
Case	aluminum
