BPX 25 Series
SEMI-HYDRAULIC, 2 DIAPHRAGM PUMP

GENERAL APPLICATIONS
Agricultural Spraying
Lawn Care/Pest Control

High-performance diaphragm design: Delivers reliable and efficient pumping even in demanding conditions, ensuring consistent flow and pressure.

Self-priming capabilities: Can prime itself without needing external assistance, making it ideal for various applications where suction is required.

Durable nylon construction: Provides excellent resistance to corrosion and chemical damage, including from fertilizers, pesticides, and other agricultural chemicals, ensuring long-lasting performance in demanding environments.

Effortless maintenance: Easy-access manifolds and inspectable valves simplify maintenance and ensure reliable fluid flow.

Dual diaphragm material options: Available with Buna® for standard applications and Desmopan® for enhanced chemical resistance and durability.

AVAILABLE MODELS

Part #	Model	Version	MAX GPM	MAX PSI	MAX RPM	HP	LBS	Inlet	Outlet	Bypass
30078-00022*	BPX 25	N	7.5	290	650	1.5	14.5	1"	3/8"	1/2"
30078-00022.10	BPX 25	N GR	7.5	290	650					

*** Requires 1/2" hose barb outlet kit (Part# 10001-13359). Sold separately.**

BPX 25 N
3/4" Solid Shaft Gearbox

BPX 25 N GR
3/4" Solid Shaft Gearbox
Adjustable Regulator
