December 23, 2019

Subject: MK2 MKS2

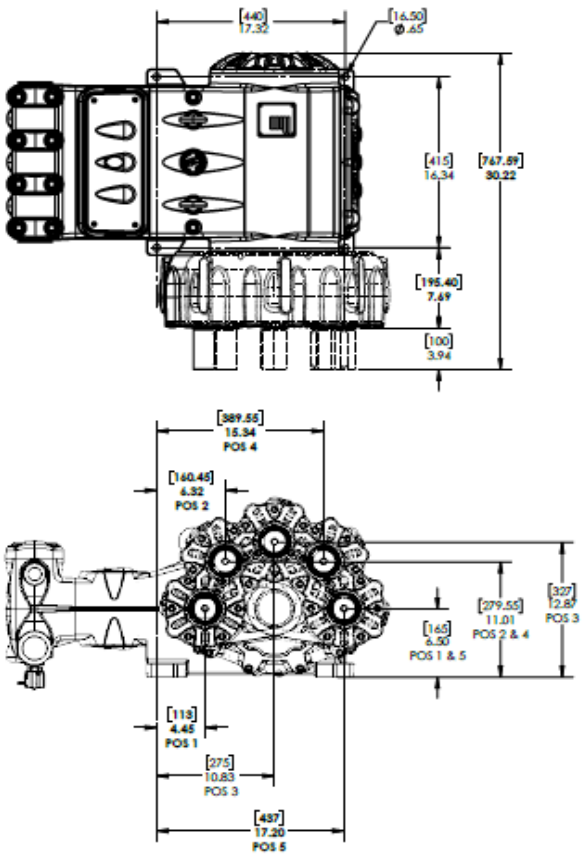

To our valued customer:

General Pump is pleased to announce the release of our MK2/MKS2 series pumps.

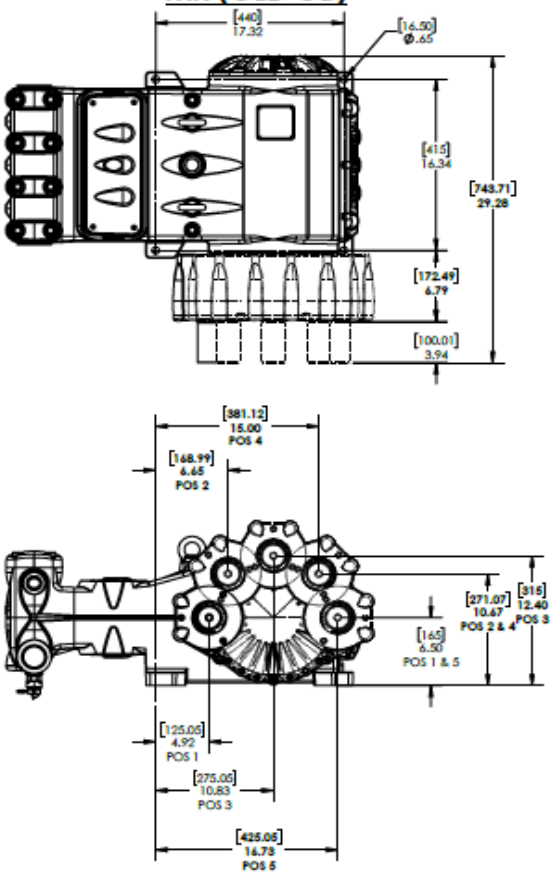

After March 1st 2020 all versions of the MK/MKS will be re-named MK2/MKS2 following introduction of a new larger gearbox that is designed to withstand increased radial loads, thus promoting durability and longevity for the life of the pump. Performance and gear ratio options remain unchanged while overall dimensions differ slightly.

Please note the MK/MKS series will still be available until inventory supplies are exhausted.

MK2 (NEW MXS GB)

MK (OLD GB)

If you have any questions regarding this change or any other GP Products, please contact your sales representative or Customer Service at 1-888-474-5487 (1-888-GP4KITS).
