High pressure washers for home and garden

The bar pressure and frequency of use are essential aspects which need to be considered when buying a pressure washer. We offer high pressure washers in three different categories to cover a diverse range of needs requirements and applications.

Core models

The Nilfisk Core range is the perfect choice when you need a
a handy pressure washer for everyday cleaning tasks.
The series ranges from the basic model with a max. pressure of 125 bar to the to the more robust model with a maximum pressure of 150 bar.
Perfectly suited for cleaning smaller outdoor spaces, cars, motorbikes and bicycles.
The upright design and integrated trolley, make them very easy to manoeuvre.

Excellent models

The Excellent range represents Nilfisk's middle segment. Flexibility and ergonomic design, combined with excellent performance and a multitude of practical functions make these powerful high-pressure cleaners. They easily master all cleaning tasks around the house as well as vehicles. Excellent models are equipped with an integrated aluminium telescopic handle and are therefore extremely comfortable to use.

Premium models

The Premium range is the top of the range of Nilfisk pressure washers for home & garden. It offers you ergonomics and comfort in a powerful design with outstanding performance.
Suitable for tough and regular applications around the house.
For added strength and safety, the Premium models are equipped with new, powerful nozzles as well as a high quality, durable high pressure hose.

Compact units for occasional cleaning

The smallest models of our pressure washers are compact and lightweight, making them easy to transport and store. The series ranges from the basic model to the more powerful models with a maximum pressure of 150 bar. All units of the Core class are equipped with a quick-connect coupling between hose and gun, as well as the Click&Clean nozzle concept - for a quick change between different accessories.

Reliable machines for frequent cleaning

A robust model range, ideal for all cleaning tasks around the house. The high power level provides sufficient force to remove even stubborn dirt.
The upright design and integrated trolley make these machines easy to transport. It also has a 3-in-1 nozzle system and Power Foam Blaster to clean ingrained dirt. The quick-connect coupling between the high-pressure hose and the gun are standard features.

Vacuum cleaners for wet and dry use

Wet or dry cleaning tasks, whether they involve water, soil, mud or wood chips, are a pain. But no problem for the Nilfisk Buddy II wet/dry vacuum cleaner. With their robust design and powerful performance, they are ideal for cleaning workshops, car interiors, garages and wet areas.

Wet & Dry vacuum cleaners are used when not only dry but also wet dirt or liquids need to be removed. The powerful Multi II is an indispensable helper, whether in the home, in the workshop or for cleaning the car. Thanks to the standard blowing function, dirt doesn't stand a chance even behind corners and in hard-to-reach places. Other features include the practical filter indicator and the innovative Push-to-Clean filter cleaning system to ensure the highest possible suction power at all times.

- Washable PET filter element: Allows damp dirt to be vacuumed up without having to use a wetfilter
- Integrated float: protects the machine; the suction process is interrupted as soon as the container is filled with liquid
- Blow up function: Easy inflation of any object such as an airbed.
- Storage for accessories and tools
- Click nozzle: With a "click" from dry to wet use
- Parking function: Allows the suction tube to be attached directly to the machine
- Hose holder: Practical and safe storage of the hose
- Power outlet (only Multi II 30 T)

At Nilfisk, we are proud to be one of the world's leading manufacturers of cleaning equipment. Founded in Denmark with over 120 years experience, we have developed cleaning equipment for both consumer and professional use.

Our products are manufactured in Europe, North and South America and China and used worldwide. Nilfisk has an extensive network of sales offices in 45 countries and is represented in more than 100 countries around the globe.

Our products cover almost all consumer cleaning needs around the home and garden and are known for their high quality and reliabilty.

At Nilfisk, we know that it's not just the product, but also the service we offer which determines whether our customers are satisfied.

We offer our customers cleaning solutions that focus on efficiency and sustainability.

To achieve this, we develop products that are easy to use and reliable, as well as requiring less energy, water and detergents, making them more environmentally friendly. When we reduce the consumption of resources, it benefits people as well as the environment.

As one of the world's leading manufacturers of cleaning equipment, we must continually innovate our business to meet the needs and wishes of our customers. That is the promise that Nilfisk makes to you as a customer.
